Thanks Scott!

Any indication of what's in it? We got a narrative of a URS report from Ms. Sautner yesterday afternoon, covering areas around the Ex. 6 - Personal Privacy wells among others, based on reports of spills by Ex. 6 - Personal Privacy but there was no analytical data. I'm hoping this fills in the data for that report as well as the locations for the data we got from Test America.

Thanks for all your efforts to share this voluminous data so quickly!

It's a foot thick with fold outs and color images. I have our document processing center working on it but it won't get done today. Where do you want me to send it to?
